Hi Katrina,

It appears that EA will be out there for roughly 3 starting on the October 16. Do you think we could get some assistance with clearing the Lead Sweeting Area and Ethyl Blending Area? We would just need low-laying brush and vegetation removed – no trees. If it would be helpful, we could put together a map of areas that needing to be cleared.

Thanks,

Matt

Pat/Todd, I will be out of the office through October 10. I also wanted to inform you that I will not be able to be in the field during the week of Oct 16.

In addition, Matt and team will be out the week of Oct 23 to delineate the lead areas.

Week 1 (Oct 16) and 2 (Oct 23): surface water--sediment focus

Week 3 (Oct 30): investigation of north tank farm and loading dock and ETF

I will be reachable, so if you do need to contact me, please do—call my desk number.

thanks

Katrina Higgins-Coltrain
